

CONSOLIDATED LABORATORY SERVICES

1000 Riverside Avenue, Suite 300 • Jacksonville, Florida 32204
(904) 308-5605 • <http://www.conlabs.com>

Anne L. Bernstein, M.D. joins the pathology consultants of Consolidated Laboratory Services with fellowship training in dermatopathology. Following a residency in anatomic and clinical pathology, she trained with Dr. John C. Maize, Professor and Chairman for the Department of Dermatology at the Medical University of South Carolina. Her training concentrated on a systematic approach to the histopathological differential diagnosis of skin diseases enhancing the clinicopathologic correlation. Dr. Bernstein also studied under Dr. Richard L. Dobson, Professor and Chairman Emeritus at MUSC and past editor of the Journal of the American Academy of Dermatology, at a weekly rotation, where she had her own clinic. She saw patients twice weekly at the VA Hospital under Dr. Bruce Thiers, Professor of Dermatology at MUSC. Both were supportive in advancing her clinical dermatology knowledge. Dr. Bernstein joins Dr. Brian Vitsky, who is board certified in dermatopathology and has over 30 years of experience.

“Continued commitment to quality and service”
